

Boston April 15th 1859

Joanna. June

I am now at 20 minutes
I am P.M. writing at Church.

I have the pleasure to inform
you that I am in luck once
more as I expected I should be
if I had patience.

I accidentally become acquainted
with a celebrated Chemist who
has spent many hours in
putting together chemicals to
form a Stone Glass free from
Dust or Smell. I have by
the company become ~~interested~~
as you will perceive an Agent
for the sale of it. I have tested
it and it is the best and
only thing of the kind I ever
saw where by a Stone could be
cleaned without getting all smutted
up and a nasty smell arising
therefrom. I will inform you
more when I get a chance.

Sarah is quite well.
We are all well at home.

Yours in great haste
P. D. Wilder

P. D. I shall be down in
a few days.
